# Multi-Media

## Create a new Multi-Media Activity
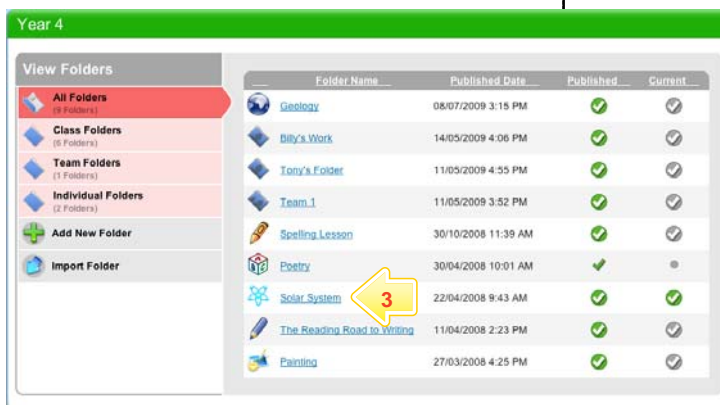

With the Studywiz Multi-Media Activity you can upload just about any kind of text, image, audio, video or link.

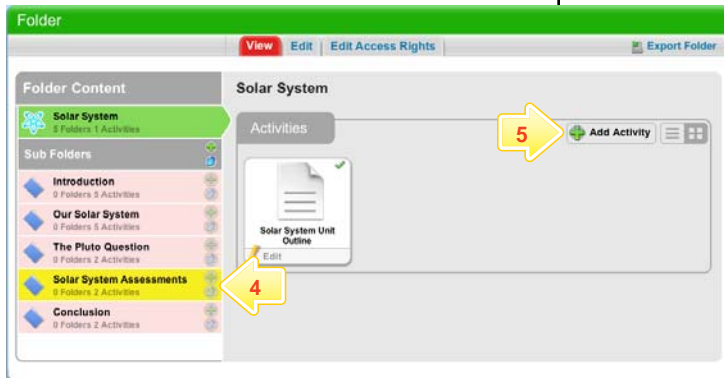

**1** Below the Class or Group in which you want to create the activity, click the **View Class Page** button.

**2** Click the **View All Folders** button.

**3** Click the Folder to which you want to add the activity.

**studywiz**

**4**   If you want to save the activity in a sub folder, click the Sub Folder.

**5**   Click the **Add Activity** button.

**6**   Click **Multi-Media**.

**7**   In the **From** and **To** fields, set the times and dates between which you want the activity to be available.

**8**   Complete the **Multi-Media Title**, **Short Description** and **Keywords** fields. Separate keywords with spaces or commas.

**9**   To set the Multi-Media as a featured activity, select the **Featured Activity** checkbox.
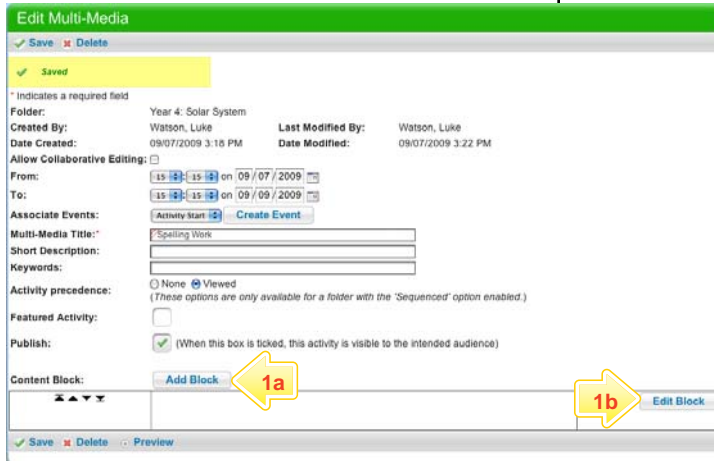

**10**   If the activity is ready to publish, select the **Publish** checkbox.

**11**   Click **Save**.

The **Associate Events** section also appears. This enables you to set an **Activity Start** and an **Activity End** date on a class calendar.
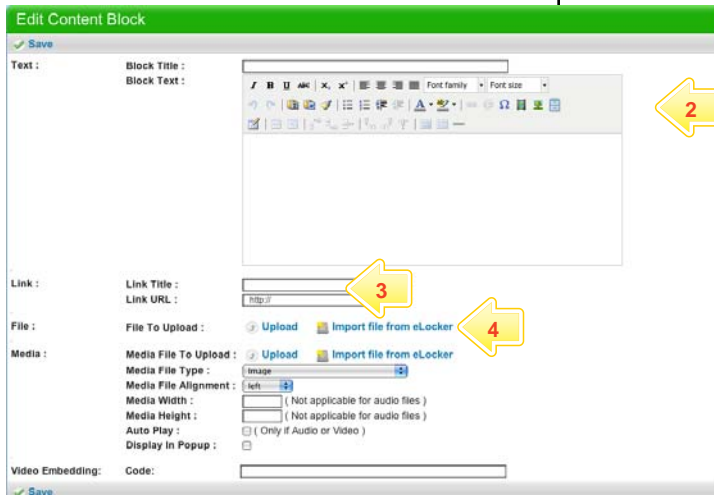

# Multi-Media

## Add Content to the Activity

You add content to the Multi-Media in Content Blocks. A Content Block can contain text, a link, an uploaded file, a media file, or an embedded video.

**1** Open the Edit Content Block page:

**a** To add content to the default content block, click the **Edit Block** button. The Edit Content Block page appears.

**b** To add an additional content block, click the **Add Block** button. The Edit Content Block page appears.

For each piece of content that you want to include, use the area of the content block that matches the content type:
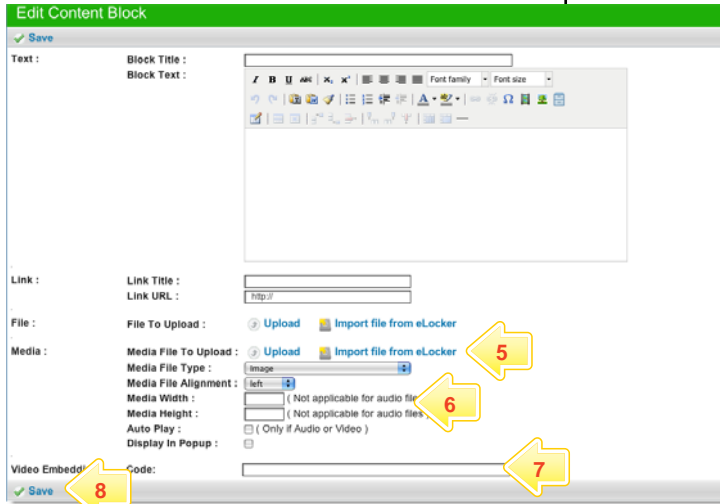

### Text

**2** Enter a **Block Title** and **Block Text**.

**Hint** Use the Rich Text Editor to format the **Block Text**.

### Link

**3** Enter a **Link Title**, which users will see on the screen, and a **Link URL**, which is the location to which users will be taken.

### File

**Note** Files are documents such as PDF, Word, PowerPoint, Excel, Keynote and Pages.

**4** Click **Upload**, then locate the file you want on a hard drive, **or**

Click **Import file from eLocker** and import the file from your eLocker.

# Multi-Media

**Quick Start Series for Teachers**

**Media**

**5** Click **Upload**, then locate the file you want on a hard drive, **or**

Click **Import file from eLocker** and import the file from your eLocker.

**Note** Don't add more than one movie, image or audio to a Media content block. If you want to include more than one piece of media, put each one in its own content block.

**6** Enter the rest of the Media information.

**Video Embedding**

**7** In the **Code** field, copy and paste the embed code of the video.

**Save the Activity**

**8** Click **Save**.

## Tips and Hints

**1** Set a prerequisite for a Multi-Media by clicking the **Add Prerequisite** button. This allows you to specify a Test or QTAssessment that your students must complete before they can attempt the new activity.

**2** Use Studywiz Multi-Media to provide reference material for your students. This way you can track which students are doing their research!

**3** Embed video from websites such as youtube, teachertube, or google videos to allow students to watch your selected movie without visiting those websites.

If you have any ideas for Multi-Media, you're invited to share them with other teachers at the Studywiz Global Community – http://studywizgc.org/. Log in using the button on your Studywiz deployment.
