

Multi-Media

Create a new Multi-Media Activity

With the Studywiz Multi-Media Activity you can upload just about any kind of text, image, audio, video and link.

- 1 Roll the mouse pointer over the **Create** tab. The Activity list appears.
 - 2 Click **Multi-Media**. The New Multi-Media panel appears.
- Hint** If you want other teachers to be able to edit the Multi-Media Activity, select **Allow Collaborative Editing**.

- 3 In the **From** and **To** fields, set the times and dates between which you want the Activity to be available.
- 4 Complete the **Multi-Media Title**, **Short Description** and **Keywords** fields.
- 5 To set the Multi-Media as a featured activity, select the **Featured Activity** checkbox.

Hint Use the Crumbtrail to change the Activity's location.

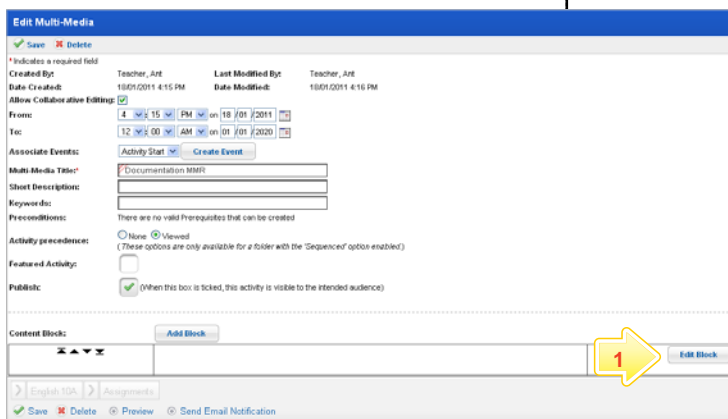

- 6 Click **Save**.

After you have saved the Activity, an empty content block appears at the bottom of the panel.

The **Associate Events** section also appears. This enables you to set an **Activity Start** and an **Activity End** date on a class calendar.

Add Content to the Activity

Add content to Multi-Media Activities in content blocks. A content block can contain text, a link, an uploaded file, a media file, or an embedded video.

- 1 Click the **Edit Block** button. The Edit Content Block page appears.

Hint To add a new content block, click the **Add Block** button. The Edit Content Block page appears.

For each piece of content that you want to include, use the area of the content block that matches the content type:

Text

a Enter a **Block Title** and **Block Text**.

Hint Use the Rich Text Editor to format the text.

Link

a Enter a **Link Title**, which users will see on the screen, and a **Link URL**, which is the location to which users will be taken.

File

a Click **Upload**, then locate the file you want on a hard drive, **or** Click **Import From eLocker** and import the file from your eLocker.

Media

a Click **Upload**, then locate the file you want on a hard drive, **or** Click **Import From eLocker** and import the file from your eLocker.

Note If you want to include more than one piece of media, put each one in its own content block.

b Enter the rest of the Media information.

Video Embedding

a In the **Code** field, copy and paste the embed code of the video.

Save the Activity

2 Click **Save**.

Tips and Hints

- 1** Set a prerequisite for a Multi-Media Activity by clicking the **Add Prerequisite** button. This allows you to specify a Test or QTAssessment that your students must complete before they can open the Multi-Media Activity.
- 2** Use Studywiz Multi-Media Activity to provide reference material for your students. This way you can track which students are doing their research!
- 3** Embed video from websites such as youtube, teachertube, or google videos to allow students to watch your selected movie without visiting those websites.

If you have any ideas for Multi-Media Activities, you're invited to share them with other teachers at the Studywiz Global Community – <http://studywizgc.org/>. Log in using the button on your Studywiz deployment.
